

Makeup:

Each dancer should have their own makeup set for dance. Using parents or siblings makeup is not recommended (for foundation/powder) because skin tone is difficult to match perfectly. You don't need to use the exact same brands listed here, but try to match colors the best you can.

You must have...

- Liquid foundation (not necessary but recommended for mini dancers)
 - Match to the color of the back of dancers hand
 - Clean liquid makeup by Covergirl about \$6 - many shades and skin types
- Powder foundation
 - Match the color of powder to the physical color of the liquid foundation, not the color name
 - Clean pressed powder by Covergirl about \$6 - many shades and skin types
- Rose colored blush
 - Cheekers blush by Covergirl #154 about \$4
- Eyeshadow
 - TruNaked eyeshadow palette by Covergirl #815 about \$12
- Black eyeliner
 - Liquid or gel formulas work the best, pencil is not recommended
 - e.l.f cream eyeliner \$3 - glides on easy, comes with a brush
 - e.l.f. liquid eyeliner \$1-2 - thin brush, good for shaping
- Mascara in black
 - Any brand is great
- Black false lashes and glue (not necessary but recommended for minis)
 - Adrell Duralash Flares about \$5
 - Comes in normal length and MINI if you can find them
- Red lipstick
 - Contagious color lipstick by covergirl in 'Really Red' about \$5
- Makeup brushes
 - Having different brushes for each task makes this whole process much easier
 - BS-MALL(TM) Makeup Brushes Premium Makeup Brush Set Synthetic Kabuki Makeup Brush Set about \$9 on AMAZON

Applying Makeup

On one of the extra Sunday rehearsals that have already been announced, I will be taking about half of the rehearsal time to go over how to apply makeup so that all of the girls have the same makeup look on stage.

1. Wash face and pat dry
2. Apply any daily moisturizers or facial products
3. Eyeshadow
4. Eyeliner
5. False lashes
6. Mascara
7. Wipe away any fallen product
8. Liquid foundation with brush/sponge
9. Powder foundation to set liquid
10. Blush on cheekbones, apply in circles (not straight lines)
11. Lipstick

1. Apply foundation to entire face.
2. Apply powder to entire face including eyelids. Can apply eyelid primer instead of powder.
3. Apply blush from outside to inside and up to temples. Apply blush on the forehead, nose and chin. Apply powder and repeat.
4. Apply base eye shadow to eyelid. (Brown)
5. Apply dark eye shadow to crease of eyelid (thicker by the nose).
6. Apply white eye shadow (highlighter) just below the eyebrow and inside and outside the corners of the eye.
7. Optional – apply glitter eye shadow over the white shadow.
8. Apply eyeliner to the top and bottom of the lids.
9. Apply lip liner and lipstick.
10. Apply false eyelashes.
